# Great Basin Incident Commander Conference Call Agenda 2017

**Date:** Saturday, July 15, 2017

**Note taker:** Gina Bald

**GB MAC/GACC Coordinator:**

Agenda/Incident Commander Discussion Points: **Summarize the following in 4 min or less:**

- Fire Size / % contained / # of people / Cost to date
- Significant changes since the last 209
- BRIEF fire synopsis /Critical Incident Information (use **Directional** vs DIVS's)
- Political Issues / Community Meetings
- Closures / Evacuations / Public Safety Issues
- Major Safety Concerns / Injuries / Accidents
- Critical Resource Needs
- Resources Available to Reassign/Share/Demob

**Predictive Services:**  
**Nanette**

**...HIGH RISK for Scattered Thunderstorms Today Northeast NV...**

**...HIGH RISK for Increasing Thunderstorms This Weekend across Nrn NV /Srnr ID / Nrn UT...**

**...HIGH RISK for Gusty Winds/Low RH Monday in Western NV...**

Today, moisture will continue to produce scattered thunderstorms in a narrow band across Ern NV and possibly into far NW Utah. We have issued *High Risk* for much of northeastern Nevada for today, where storms will not be quite as wet as further south.

Moisture increases further this weekend with greater lightning coverage Saturday over the northern half of Nevada into Southwest ID, then shifting into the central and eastern half of Nevada, Northern Utah and Southeast Idaho on Sunday. We have issued *High Risk* for much of this area. Lightning will continue Monday across Utah/Southeast ID/WY, however moisture may increase with some increased RH and wetting rains. Thunderstorms may decrease in coverage over the Eastern Great Basin by the middle of next week, however, thunderstorms will increase again to the north and west later next week.

Winds will increase Monday with low RH over western NV and *High Risk* has been issued for these conditions.

**GBCC Update: Gina Dingman**

- Heavy IA
- 38 New fires for 18832 acres
- Large Fire Growth: 12025
- Teams: 2 T1, 2 T2
- Aircraft: 8 AT; 4 Scoopers; 26 SEATs, 3 LP, 10 T1 Helo: 1 available, 13 T2 Helo: 4 available in ID; 24 T3 Helo: 15 reserved for IA
